

Steam generators

NEW STEAMY STEAMER JET

Standard equipments New Steamy

Standard equipments Steamer Jet

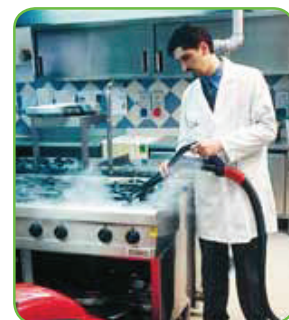

Features

- To exploit the full potential of steam, IPC has developed a series of multipurpose machines which: produce and deliver steam, deliver detergent, remove dissolved dirt and/or dry without suction
- Top quality products with 18/10 stainless steel high capacity boilers
- They can be used in complete safety, thanks

to the technical features and security devices adopted

- The range can be used in all sectors. For example, it is suitable for cleaning in the home, in the health sector, institutions, hotels, transport, the mechanical sector, agriculture, etc.

Chassis and trolley in painted steel and/or shockproof plastic.

Low voltage control panel (12V) with pressure gauge, main ON/OFF and boiler power switch, steam ready indicator, steam control (New Steamy).

The large diameter rear wheels and large swivelling wheel facilitate movement of the machine (Steamer Jet).

Code	Model	Boiler volume (l)	Working pressure (bar/MPa)	Steam temperature (°C)	Steam volume (g/min)	Absorbed power (1~230V-50Hz) (W)	Absorbed power (3~400V-50Hz) (W)
GNVA47891	NEW STAMY	2.7	5 / 0.5	~ 140	0-80	3000	-
GNVA46653	STEAMER JET M II	3.5	5 / 0.5	150	40 / 80 / 100	3500	-
GNVA46655	STEAMER JET 7140 T II	4	5.5 / 0.7	160	200	-	8100
