

Cold water high pressure washers

PW-C10

Standard accessories

TBAP40105
5 m H.P. hose

LCPR40077
Turbo lance

LCPR40081
0,5 l foam lance

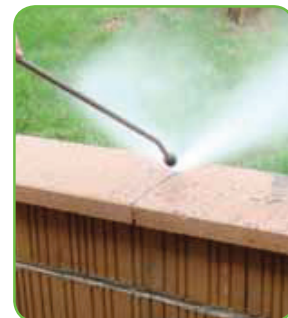

IPPR40011
Trigger gun with twist prevention device and safety lock system

LCPR40073
Lance with spray angle adjustment

Features

- Immediate total stop (the machine goes off automatically when the trigger gun is released)
- Axial pump with aluminium alloy head
- Stainless steel pistons with excellent mechanical characteristics
- Universal motor (ultra-light copper windings for easy movement)
- The motor is protected from excessively high temperatures by a thermal cutout
- Ergonomic and robust handle for an easy and comfortable transport

Transparent quick coupling for filling the machine, with filter.

Lance, trigger gun and hose reel supports fitted as standard to keep everything within reach at all times.

The large diameter wheels and wide tread give the machine great stability while at the same time making it easy to move.

Code	Model	Remote control	Pressure (bar)	Flow rate (l/h)	Voltage (Ph-V-Hz)	Absorbed power (kW)	RPM	Electric cable (m)	Hose (m)	Weight (kg)	Dimensions (cm)
